

SAPC 15210
COPY / OF 9 STATINTL

April 25, 1957

Dear Doug:

As a result of my talk with Hazel on the telephone Monday, April 22, I am enclosing five thermofax copies of the contracts which we have with our field representatives. Because of slight differences in the contracts, I am sending you five copies of each particular contract and four copies of the general draft from which all the contracts were made. I think there are enough copies enclosed to suffice for your needs. If there are too many you can probably place them in your waste basket. I believe this completes our requirement of Part IV-c of Contract BA-732 which says, "The Contractor shall furnish to and file with the Contracting Officer such copies of the employment contracts entered into with all Contractor technicians engaged in performing the overseas services to be rendered under this contract as may be required by the Contracting Officer".

STATINTL

Such a clause is not contained in Contract HF-BA-237 which is our contract with the FOG group for the services of our  STATINTL  However, copies of his contract are also enclosed as I believe you would appreciate a copy for your files.

If we can be of further assistance please do not hesitate to call.

Very truly yours,

STATINTL
